

KAWAN VICTOR CAVALCANTE

FULL STACK DEVELOPER

Curitiba, Brazil · +55 41 99119-9082 · kawan.cavalcante@outlook.com · github.com/KawanVictor · linkedin.com/in/kawan-cavalcante

PROFESSIONAL SUMMARY

Full Stack Developer transitioning careers after more than 5 years at Vivo (Telefônica Brasil), building internal applications, REST APIs, automation tools, and solutions for operational optimization. Experienced with React, TypeScript, Node.js, NestJS, Python, and PostgreSQL, with a strong background in systems integration, Docker, Kubernetes, networking, monitoring, and AI agent integration. Currently pursuing a degree in Software Engineering, seeking opportunities to develop scalable, high-performance products.

TECHNICAL SKILLS

Frontend	React, TypeScript, JavaScript, HTML, CSS
Backend	Node.js, NestJS, Python, REST APIs
Databases	PostgreSQL, MySQL, SQL Server
DevOps	Docker, Kubernetes, Git, Linux, Postman
Networking	Network infrastructure, connectors, systems integration
AI & Automation	AI agent integration, workflow automation
Monitoring	Grafana, OpenSearch, Graylog, Zabbix, DataMiner

PROFESSIONAL EXPERIENCE

Telecom Analyst (Jr.) — Full Stack Development & AutomationMar 2025 – Present

Vivo (Telefônica Brasil) — Curitiba, Brazil

- Develop internal applications, REST APIs, and automation scripts using React, TypeScript, Node.js, NestJS, and Python.
- Work with Docker and Kubernetes, and build connectors and integrations between internal systems, including AI agent integration for process automation.
- Integrate systems and manage data using PostgreSQL and SQL, and support network infrastructure for critical environments.
- Build operational dashboards and monitor critical environments using Grafana, OpenSearch, Graylog, DataMiner, and Zabbix.
- Contribute to continuous improvement of operational processes.

Telecom Technician (Mid-level)Mar 2023 – Feb 2025

Vivo (Telefônica Brasil) — Curitiba, Brazil

- Developed scripts and automations, and integrated tools across telecom platforms.
- Monitored critical environments and provided Level 2 technical support.
- Analyzed incidents on telecommunications platforms.

Operations Support AnalystNov 2020 – Feb 2023

Vivo (Telefônica Brasil) — Curitiba, Brazil

- Monitored critical services and managed incident response and ticketing.
- Provided remote technical support and diagnosed failures in telecommunications environments.

EDUCATION

Bachelor's Degree in Software Engineering — Estácio, Brazil · In progress, 2025–2028

Associate Degree in Systems Analysis and Development — Unicesumar, Brazil · Completed, 2024–2026

Technologist Degree in Mechatronics — IFSP, Brazil · Completed, 2015–2016

CERTIFICATIONS

- Python AI Backend Developer — DIO
- Linux Terminal, Shell Scripting and Network Management — Udemy
- C# Complete with Object-Oriented Programming — Udemy
- Databases and SQL — Udemy
- JavaScript with Node.js — Udemy
- Complete Web Development — Udemy
